“ *I've just learned of Dr. England's passing and am so sorry for her family's loss. I was one of her patients for a short time before she became ill. She was a caring and wonderful therapist and I'm grateful for everything she was able to help me overcome. She is greatly missed. '*

“ *'(cont.) She gave the warmest hugs. She saw the best in me and helped me see it, too. I wish everyone in the world had a Toni in their life when they needed her. I imagine that anyone who connected with her at some point in their life in whatever fashion was changed for the better. I know I have been.\n\n\nTo the family, my thoughts and prayers are with you. It was evident she loved her husband, children, and grandchildren so much. It is tragic that she left this world too soon, but what a legacy she left with her family and the countless people she helped. She was truly unique. I loved her. I will never, ever forget her.'*

“ I am heartbroken to hear of Toni's passing. I have known her since the 1990s and was a client of hers off and on for about 20 years. She was an amazing woman and therapist. She put people at ease with her warm sincere smile and sparkling blue eyes. She was genuinely caring, and she was one of the most well-read women I've ever met. I remember her bookshelves, filled with interesting books and also photos of her family. She just lit up when asked about her family. She was so excited for the marriages of her children and the arrival of her grandchildren. \r\n\r\nShe had such joy in her heart, and she wanted that for her clients, too. I always left her office feeling empowered, strong, and hopeful. She encouraged me to go back to school and change careers when I voiced my dissatisfaction with my job. She helped me through so much over the years. \r\n\r\nShe was empathetic, compassionate, encouraging, knowledgeable on so many topics, and she had a wicked sense of humor! Boy, could she laugh! “ I find myself saddened that I missed not seeing this sooner. \r\nWhen Toni found out she was sick, she kept in contact for a bit but I tried to also respect her privacy. \r\nToni was the greatest Dr and friend to our daughter and family.\r\nI find it interesting just Tuesday, I was telling a story about a squirrel moment at an appointment. We thought she was being silly but there really was a squirrel out the window.\r\nOur thoughts and prayers go out to her family. '

“ ‘I first met Toni when she interned at Green Country Counseling 30 years ago and then worked for her when she began private practice at Brittany Park. Such a sweet soul and interesting, full life - complete with loving family. Interesting? Yes. \r\n She showed me that picture of her with Chet Huntley when she was in broadcasting. Along with that, many good memories. - Vicki Seward’

“ ‘My thoughts and prayers are with all of you. Toni was an amazing woman and I am one of the ones she helped. I worked for her, but she also helped me with my difficult marriage by enlightening me on the personality disorder that I was dealing with in my spouse.\r\n She talked of you all frequently. She bubbled when she spoke of her children and those wonderful grandchildren. She loved being a grandma.\r\n And Robert, she also talked about how wonderful you are and how grateful she was to have found you! \r\nLove to all,\r\nGinger Schochler’
