“ I looked up Sue on FB because She has not messaged me for so long. I wonder if she did not tell me that she was sick because I was talking of the pain I was having from MS and my husband's cancer and she probably thought it would not be good for me to hear her bad news. I so wish she would have told me. I first met Sue when we made our 1st communion together. We had lots of good memories, Ice skating and a Halloween costume party where she went as a little boy and I was the little girl. I wish we had pic. of it. .I missed our 50th class reunion because I had a concussion before it. When I heard Sue had been there I was sad I missed her because she was the one I most wanted to see. I went to the reunions before but not the latter ones so we had not seen each other for years. I am so glad we caught up on FB. I love and miss her.
