“ I worked with Trish in RDU since she was hired here at SJMC. I cannot tell you how much I've learned from her. She was my medical consult always, and never let me forget how bad my female catheter aim was!!! I would ALWAYS tease her when we were teamed up admitting a patient that when she started her IV's I'd have to shake the bed so she thought she was in an ambulance. We will all miss her, deeply. Prayers and hugs to you Ms. Bev. and "Baby girl" as well.

“ Loved Trish to the moon and back. She always showed great compassion for her patients. Every time I worked with her, I always learned something. She had a quest for excellence. Enjoyed her feisty spirit. Will miss her fiercely.

“ I've known Trish for many years: from when she was a medic with EMSA and as a nurse at St. John. Through all her health issues, and personal losses... Trish always had a heart of gold and a love for the Lord. She loved her friends and family. My heart goes out to those Trish was close to. My condolences to her family and friends. And my prayer is that Trish found the peace she so desired and is no longer in pain.

I just learned of Trish's passing on her birthday in 2026, as I was looking for her to give her a call. My heart is saddened to hear of her passing. I worked with Trish at OSU College of Osteopathic Medicine. She and I had long talks as we took the medical bus to rural communities. Trish had a very compassionate spirit, a big heart of gold, and taught me so much when I went through paramedic training. My sincere condolences go out to her mother Bev and other family members. Trish: Some day we'll meet again in Heaven to laugh and share our stories. Love you girl! ~Debra Martin
